8. [Do you believe in local control of education?](#)

The goal of this survey is to inform voters where candidates stand on important issues of Common Core, PARCC assessments, and data mining. Every effort was made to reach all candidates. If a candidate did not previously respond but would like to participate in this survey, **we will continue to accept survey responses** and will update this list. (Simply reply to the survey we sent previously or request a new survey by contacting us [here](#)). This survey was a joint effort of many grassroots parents and citizens across Colorado and we thank every candidate who took the time to participate.

PROCEED TO NEXT QUESTION ▶

Would you support legislation that requires parental consent before sharing or collecting children's data?

Currently, student data collection starts in preschool and follows a student from prek-12, through college and the workforce. (In addition to grades, data can include 400+ data points including behavioral, predictive and psychological information on the child, as well as disabilities, medications, discipline and much more). This data is collected by and shared with on-line corporations, agencies and non-educational third parties.

Would you support legislation that requires parental consent before sharing or collecting children's data?

Currently, student data collection starts in preschool and follows a student from prek-12, through college and the workforce. (In addition to grades, data can include 400+ data points including behavioral, predictive and psychological information on the child, as well as disabilities, medications, discipline and much more). This data is collected by and shared with on-line corporations, agencies and non-educational third parties.
